

## CHALLENGE #7 OF 7- 'OUR BLUE PLANET'

Thanks for taking the Oceans of Discovery Blue Planet challenge. The questions in Activity 1 can be answered while watching episode 7 of David Attenboroughs Blue Planet 2.

### QUESTION

### ANSWER

When did Orcas (Killer Whales) become protected in Norway?

How does the Orca stun its prey (Herring) when hunting?

How do young Clownfish find their way back to their home reefs after being away?

What is sadly causing many Wandering Albatross chicks to die?

What did humans do to Leatherback Turtles before they became protected in Trinidad?

How does the Marine Biologist look at the behavior of the pregnant female Whale Sharks?

What percentage of our international waters are protected from humans?

Where can Sperm Whales be found in large numbers?

What can happen to corals which are whitened or 'bleached' due to ocean warming?

How do scientists record the size & number of icebergs in the Antarctic?

Activity 1

### Activity 2

#### WHAT CAN I DO!?!?

Can you come up with five different ways you and your family/friends can help protect our oceans?

### Challenge

Can you create your own fish (or aquarium) using old CD's?

If your CD collection is now a thing of the past why not use a plastic bottle similar to below!!!
